1. I have had to spend a great deal of time this week working on a special report which I have finished today.
2. I have been working up a special report on the OSI Intelligence Reporting course. I had been prepared to discuss this with [] today, but he was called away to another meeting. After general discussion with [] I shall submit an official report to him and to the Director of Training. My recommendations are for some very far-reaching planning and activity throughout OSI as the only sound approach to the problem of improving scientific intelligence reports.
3. Checked up on the situation at D Street. Found that Mr. [] is planning to leave the Agency on 6 June and that he has no under-study ready to take over. [] had evidently discussed his plans with [] several weeks ago. There appear to be no immediately pressing problems at D Street since the enrolment there is still falling off.
